A TASTE OF OLDSTEAD, SHARED

As a brand, we've always believed that the best collections are built around moments worth slowing down for; taking time to indulge, to share, to celebrate or simply to enjoy the everyday a little more. That philosophy sits at the heart of our new Evergreen Collection: a curated range of luxury hampers designed as much for self-indulgence as they are for gifting.

We've brought together an exceptional selection of premium products, artisan treats and beautifully crafted essentials, each chosen for its quality, character and sense of occasion. Whether it's a quiet evening in, a weekend gathering or a thoughtful gesture for someone else, every hamper is designed to elevate the experience.

Creating the Evergreen Collection has been a genuine labour of care and attention. More than simply assembling beautiful products, it's about creating collections people genuinely want to live with, savour and return to - hampers that feel timeless, generous and effortlessly enjoyable.

Whether you're treating friends, family or yourself, the Evergreen Collection is about bringing a little luxury into everyday moments. We hope these hampers bring as much pleasure to open and enjoy as they do to give.
